**RE: 2009 Annual Science Fair**

My name is Elizabeth Maynard and I am a proud parent of two (soon to be three) Lincoln School students. I'm registering my youngest for kindergarten Thursday☺! My sons, Juwan (5M) and Jonathan (4G) participated in the school's annual Science Fair, again. I just attended the Thursday afternoon session. Once again, I was so impressed with all the students. Their projects were fascinating. However, I was more impressed with the students' comprehension of their projects and their understanding of the relevancy of each subject matter. Their dissertations were so eloquent. You could see the pride and confidence beaming from their faces as they described their project.

My face beamed with pride as well. I was so proud of my boys and their classmates. Everyone did such a fantastic job.

I just wanted to thank you and your tireless staff, for all of the hard work, time and sacrifice you put forth daily, on behalf of our children. I am extremely grateful.

Congratulations on another successful Science Fair.

Thank you, very much, for everything!

Sincerely,

Elizabeth Maynard  
Proud Parent
