

# THE PARTNERSHIP SCHOLARS

- An all-volunteer pre-college education program -

Mr. George Albano, Principal  
Lincoln Elementary School  
170 East Lincoln Ave.  
Mount Venon, NY 10552

Dear Mr. Albano:

I greatly enjoyed the piece on your program on the Lehrer Newshour. Your talent, dedication and leadership serve as a model for public education across the country. Your school is a very bright spot in the progressively darkening world of pre-college public education. You have demonstrated that the inspired efforts of one person can make a difference. You have been a magnet for those similarly oriented and produced a model which truly leaves 'no child behind' (in contrast to the misdirected program promulgated by our present national administration).

We are attempting to ignite a few lights out here in California with establishment of a model which we hope might, eventually, spread across the country. It's called "The Partnership Scholars Program". You may be interested in the enclosed brochure and copy of a recent nationally syndicated article on the program.

Again, my hat's off to you. Keep up the great work!

Sincerely,  
  
Glenn A. Langer, MD  
President/Director
