

I remember how many useful tools Amanda brought home from Lincoln; and on her last day, she was given a stack of books to keep. The science program at West Patent is close to non-existent. No more than 15 minutes of homework is given per night and never has Amanda been assigned or encouraged to do a project or creative assignment. For Martin Luther King's B-day, the children saw a brief film on his life and there was a question and answer session. Well, we certainly don't have any films on Lincoln or Washington; very little was even discussed on these two great men.

I just wanted to let you know Mr. Albano, that Lincoln School has provided my child with a great start in her educational career; but not only that, it is greatly superior in educational approach (in my eyes) and certainly expanded my child's interest and appreciation of the sciences; we greatly miss your school.

The Bedford school system is considered an excellent system; unfortunately it can not even compare to the wonderful humanities program at Lincoln; this I can say with great confidence! Please share these thoughts with your staff, and once again a most heart felt THANK YOU!

Sincerely, Marissa Torres
Lincoln School Parent
